

### Maxhub - LoopSign Deployment Guide

Deploy LoopSign to your Maxhub screen is very easy. Maxhub has really put their mind and effort into their User Interface to make to configuration easy.

LoopSign utilizes the built in URL player (Web browser). So, if you have a Digital Signage screen from Maxhub you are good to go!

### Content

1.	Gen	eral settings	. 2
2.	MA	XHUB NDxxCMA series	.2
	2.1	Getting started	.2
	2.2	Setting region and time/date	.3
	2.3	Automatic on/off scheduler	.4
	2.4	Configure the URL player	.6
	2.5	Network and removing screen share code	.7

#### 1. General settings

Initially you must make sure you have configured correct time zone, time/date and automatic on/off schedule. Correct time/date and NTP settings is essential for LoopSign. Please refer to your operating manual.

#### 2. MAXHUB NDxxCMA series

#### 2.1 Getting started

Start up the display then enter homepage at first time. Click "Setting" in the right of the screen for configuring all essential parameters.

MAXHU	В			CODE: G W 9 6 G W	
	06:48 AM August 28 Monday	≈ 🔥 ≢ 🕫	۵		
		≝ No Network GW96GW	<u> </u>		
	OR code failed to load	ScreenShare	Finder	Settings	
	<u>.</u>				

Click "System - Language and keyboard" to switch system language per local needs, while English is recommended in this document.

U Legal Information, Android Version	Switch on Delay	United Kingdom of Great Britain a United States of America	~
	Storage		>
	System Update		>
	Advance Settings		>
	Security		>

Navigate to "System - Date & Time". Enable "Automatic Date& Time", and then go to "Time Zone" to set the right time zone.

		CODE: G W 9 6 G W
Wireless & Network	Date & Time	
Personal Walpuper	Use 24-Hour Format	
Count & Output Sound, Input & Output	Automatic Date & Time	
Application Application management	Date Format	Aug/28/2023
System Date & Time, Language & Keyboard	Time Zone	GMT-04.00 New York
About     Least information, Andread Interview		GMT-11:00 Midway GMT-10:00 Honolulu
		GMT-08:00 Anchorage
		GMT-07-00 Los Angeles
		GMT-07:00 Tijuana

#### 2.3 Automatic on/off scheduler

It is highly recommended to configure automatic on off according to your needs. To shut down the screen when it is not needed will prolong its lifespan. Even if you require your screen to be on 24/7, schedule a short on/off each night (For example off 02:57 and on 03:00) This to make sure your screen has a daily reboot.

- Navigate back to "System - Startup & Shutdown" menu, and go to "Time Switch".

		CODE: G W 9 6 G V
Wireless & Network     WiFi, Elizetooth, Elhemat	Startup & Shutdown	
Personal Walkoore	Startup Channel Last shutdown channel	~
→ Input & Output	Standby After Startup(Black Screen)	
Application	Boot Logo and Video Custem Boot legs and video	>
