

Samsung Tizen 7 - LoopSign Deployment Guide

LoopSign Samsung App

Please note that you need to have a Digital Signage screen from Samsung with Tizen7 SOC. Consumer models does not have the necessary built-in features.

It's always a good idea to have the latest firmware – check with your reseller.

2.	General settings – First time installation guide	. 2
3.	Install/Configure	. 8
4.	Configure LoopSign to connect to your screen	12

1. Prerequisites

Make sure you have a Tizen7 based Professional Signage screen with the latest firmware. Contact your reseller, Samsung, or us directly to get the latest firmware.

Please note that consumer screen models will not work with Digital Signage, they do not have the necessary settings and features.

This guide is based on Samsung Tizen 7 SOC

2. General settings – First time installation guide

- Go through the first time installation guide

Connect to network (ethernet recommended)

Choose "OK"

- Choose "Manual Setup"

- Choose "Auto"

Double-check that the App Management settings are shown correctly as below.

Home button on remote \rightarrow Settings \rightarrow On/Off Timer.

SE Features	∂ So	ource	C Settings	
D			O	
Clone Product	Device ID: 0	Off Video Well	On/Off Timer	

Set On Timer 1 as shown in the picture below. Adjust weekdays and time as needed, but remember to always set Source = Custom App.

Setup					Everyday	
M (5a)	🖾 Mon	🖾 Toe	M wet	M Thu	M ≣a	M 50
Time					06:00	
Volum	e .					0
Source					Custom App	

Set Off Timer 1 with adjusted times as needed.

Home button on remote \rightarrow Favourites. Then choose Custom App/LoopSign (which is always the left-most alternative in the bottom horizontal menu).

The LoopSign app will start and show the screen's hash code. To show content LoopSign, the code needs to be paired with a LoopSign screen on your account.

4. Configure LoopSign to connect to your screen

- Select screen settings in your LoopSign console

- Enable Samsung Tizen LoopSign player and enter the HASH code
