

Discover 2 LoopSign APK install

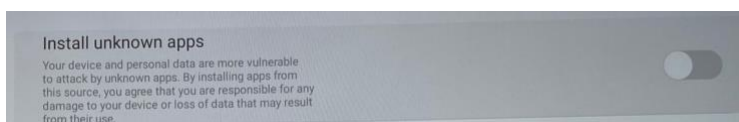

Step 1:

On the Discover, open the app drawer and navigate to **Settings**. Then go to **System** and select **Advanced settings** from there.

Step 2:

In **Advanced settings**, enable the option **Install unknown apps**.

Step 3:

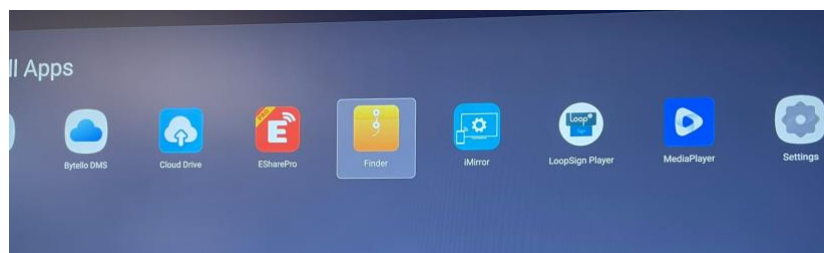

Download the LoopSign APK file from [here](#), and copy it to a USB stick.

Step 4:

Insert the USB stick into one of the USB ports on the screen.

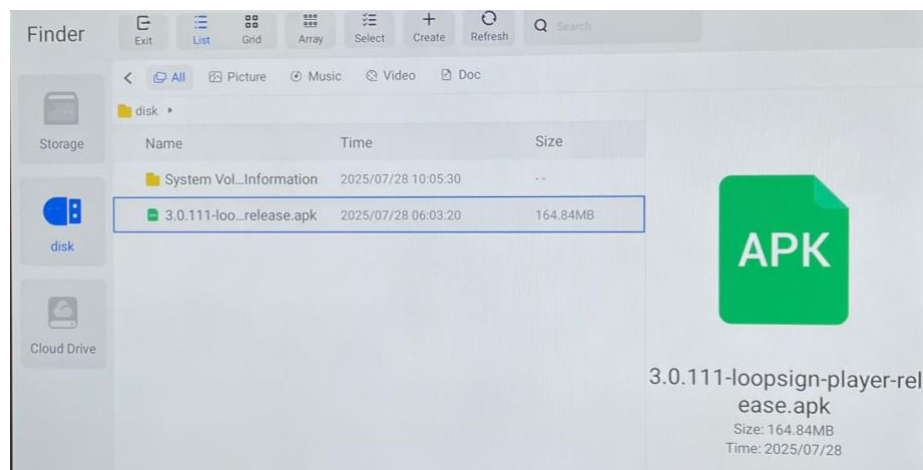

Step 5:

Now return to **All apps** and open **Finder**.

Step 6:

You should now see the LoopSign APK file on the USB stick. Select the file and click **install** to begin the installation.
